What do you think?

We are always looking ahead and thinking about what you would like to see more of, what we can do to improve, and what haven't we thought of doing yet! When visiting for parents evening, and in the main reception, you may have noticed the QR codes we have on display. By scanning the code, you can tell us what a good day looks like for your child/children and share your thoughts.

Rest assured that we look at responses regularly and discuss what we can do to address them. Ideas for how we can improve our curriculum include providing more opportunities to learn about money and finances, first aid, 'hands on' science sessions and broadening our languages offer.

As a result we have introduced British Sign Language across all classes and contacted some different partners to bring real world business scenarios into school. St John's Ambulance have recently visited to deliver first aid and life saving sessions for Years 3-6. We are also reviewing how we approach science, so that children have more opportunities to be 'hands on' when carrying out investigations.

Parking continues to be an issue but we rely on visitors to park safely and appropriately on the grounds around school – we report registrations of cars parked dangerously or illegally to the Police and our Governing Body have raised our concerns with Flintshire County Council.

We would very much appreciate you sharing your thoughts below so that we can continue to provide exciting learning opportunities and enriching experiences for our children and school community:
